for your family

EXCLUSIVE

165 PHYSICIANS  
45 SPECIALTIES

Having a doctor  
care for you  
isn't the same  
as having a doctor  
care about you.

From the day you join MDVIP, you'll be taken care of like never before. Unlike the average doctor who has up to 3,000 patients, MDVIP physicians have fewer than 600 patients each, which allows them to focus on prevention and wellness. The result? You receive the time, attention and care from an exceptional doctor that you can't get anywhere else. With MDVIP, it's about health, and it's all about you.

## How We Chose Our Top Doctors

Atlanta magazine's Top Doctors list was compiled by Castle Connolly Medical Ltd. This New York-based healthcare research and information company was founded in 1991 by a former medical college board chairman and president to help consumers identify America's top doctors and top hospitals. Castle Connolly's established survey and research process involves tens of thousands of top doctors and the medical leadership of prominent hospitals.

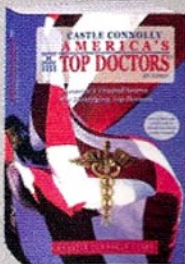

Castle Connolly's physician-led team of researchers follows a rigorous screening process to select top doctors on both the national and regional levels. Using mail and telephone surveys and electronic ballots, they ask a randomly selected sample of board-certified physicians and key medical leaders to identify highly skilled, exceptional doctors. Careful screening of doctors' educational and professional experience is essential before final selection.

Castle Connolly seeks nominations not only of physicians who excel in academic medicine and research but also, most importantly, those who exhibit excellence in patient care—those to whom nominating physicians would send their own families. The survey does not include fields in which patients rarely have a choice, such as emergency medicine, nor does it include cosmetic surgery as a standalone specialty.

Thus, Castle Connolly identifies the most respected doctors in America and provides consumers with detailed information about their education, training, and special expertise in its paperback guidebooks, online directories, and national and regional magazine "Top Doctors" features such as the one in this issue.

Doctors **do not** and **cannot pay** to be selected and profiled as Castle Connolly Top Doctors. Advertising in *Atlanta* magazine in no way influences the selection for this issue or for any future listings by Castle Connolly.

Physicians selected for inclusion in this issue's "Top Doctors" feature may also appear as Regional Top Doctors online at [castleconnolly.com](http://castleconnolly.com), or in one of Castle Connolly's Top Doctors guides, such as *America's Top Doctors* (\$34.95) or *America's Top Doctors for Cancer* (\$29.95).
